Configured and shipped. Hardware and postage extra.

Extra hours — **From* £100** an hour

Agreed with you in advance.

Out-of-hours cover — **On request**

Evenings and weekends, quoted to fit.

How the plans work

- Plans are billed monthly in advance. Either side can end them with 30 days' written notice.
- Setup and any extra work are quoted and agreed before they start.
- Amrani IT Ltd is not VAT registered. No VAT is added to our prices.
- Unused hours, software licences and on-site travel are agreed case by case and set out in your written plan before work starts.

Both plans include

- ✓ Amine as your named lead
- ✓ A helpdesk with agreed response targets
- ✓ Amrani Academy training for your staff
- ✓ No tie-in beyond 30 days' notice

Response targets

Our first-response targets are 1 hour for urgent issues and 4 hours for standard requests, during the support hours agreed in your plan. A first response is an acknowledgement and initial assessment, not a guaranteed fix.

One-off work

IT audit

What you have, where the risks are and what to fix first.

Site surveys, on foot and by drone

CCTV, cable routes and rooftop equipment, as diagrams and photos.

Cyber Essentials readiness

We check you against the requirements and fix the gaps.

Each is quoted after a free 30-minute review.

*Starting prices for the scope shown. Final scope and price are agreed in writing. Existing client pricing follows the written agreement.

Tell us what's going wrong with your IT.

Thirty minutes, no obligation. You'll leave knowing what we'd fix first and what it would cost.
